PebbleGo Next Research Template

One of the most important things to remember when tackling a science or engineering question is to take detailed notes and stay organized. This research template will help you detail the information you'll need to get started!

Pick a topic that interests you. Then create a science question about your topic:

What do you already know about the topic as it relates to your question?

What information or materials do you need to be able to answer your science question?

What steps do you need to take to answer your science question?

Once you've answered your science question, how will you communicate the results with your friends and family?
