

Dear Families:

We are excited to announce two new school resources for your student, PebbleGo and Capstone Interactive eBooks, that can both be accessed from school, home, or on the go— anywhere on any device, including your personal devices, with an internet connection.

PebbleGo is a database specifically geared toward the needs of K-5 learners. It helps your student learn foundational research skills plus provides critical early-reader supports like real audio voice overs and text highlighting.

Capstone Interactive eBooks are a collection of K-5 fiction and nonfiction interactive eBooks that also provide critical supports like text-highlighting and read-aloud audio, recorded by professional voice-over artists, to model pronunciation and fluency.

But best of all, students love using PebbleGo and Capstone Interactive eBooks. The easy navigation makes it inviting for students to discover new articles and eBook titles. And, you can feel comfortable knowing that they are exploring an ad-free website bursting with resources to help your student master many skills and learn fun facts they will be so proud to share.

Please explore PebbleGo and Capstone Interactive eBooks with your student and let us know your feedback.
