

Dear Teachers:

We are excited to announce a new resource available to our school—PebbleGo Next! PebbleGo Next is a comprehensive digital resource tailored to meet the needs and curriculum of grades 3-5 learners. It provides curriculum-connected content, information-rich articles, and text suitable for grades 3-5.

Accessing this resource has never been so easy!

Simply go to www.PebbleGoNext.com
and use our school's login and password:

Login:

Password:

Once you login, you will see which databases our school subscribes to: State Studies and American Indian History, Science, and Social Studies. Once you start to explore, you will notice how the easy navigation makes it inviting for students to discover new information: Read-aloud audio recorded by professional voice-over artists, text-highlighting, tabbed navigation, online dictionary access, and source siting in three formats: APA, MLA, or CMS.

Not only is PebbleGo Next great for our 3-5 researches, but there's also a Community brimming with educator resources and administration tools for you! You'll find lesson plans, ideas and reproducibles correlated to curriculum standards for each database! Visit community.mycapstone.com to sign up today.

Best of all, PebbleGo Next is a school-to-home resource—students can use it anywhere with an internet connection. Send the school-to-home letter (found on Capstone Community) to inform parents about PebbleGo Next: how it's used, what it's for, and how to access it. Did your student forget to check out a book for a report due tomorrow? Encourage them to use PebbleGo Next! Our school's login and password (above) provides your student the exact same access at home as in school

I truly hope you're as thrilled as I am about having access to this incredible database for our learners in grades 3-5.

If you have any questions or feedback, please feel free to contact me.
